

About Enerigus

Established in 2009, Enerigus has become a venue for local, national and international events.

Ideally situated within Britain's Energy Coast and within easy reach of both Workington and Whitehaven town centres; Enerigus provides West Cumbria with world class facilities for events, exhibitions and conferences.

Floor to ceiling windows along contemporary décor give the conference rooms and exhibition areas a light and airy feel. Space can be used for a variety of events and functions as the room flexibility allow needs to be met.

This major yet local facility helps plug the significant gap in venue and event management for local businesses across Cumbria, and continues to contribute to the establishment of Britain's Energy Coast.

Events Brochure

*A state of the art conferencing and events facility
situated on a seven-acre site at Lillyhall, Workington.*

Auditorium

Energus offers a 204 seat Auditorium which can be used for presentations, training seminars and video conferencing to name a few. The auditorium boasts PC, Blu-Ray, DVD, VHS & CD capabilities along with digital surround sound and a large projection screen. Stationary microphones and wireless microphones are

available for those who require the ability to broadcast their voice through the Auditorium. Video conferencing allows connection between different locations using either an IP based connection or an ISDN connection.

Atrium

The Atrium boasts a floor to ceiling wall of glass, highlighting the magnificent views out to the seaside coast. The area is extremely versatile, ideal for exhibitions and banquets seating up to 230 people.

The state of the art audio and lighting system sets a calm and professional ambience and can be personalised to your event. There is also a large video wall at one end of the Atrium ideal for presentations, and a small screen at the reception used for advertising and smaller presentations.

Conference Rooms

An overhead projector that operates in conjunction with the touch screen smart boards are provided. The smart boards are linked to podiums which offer both DVD and VHS facilities. Flipcharts are also provided.
